Background on FEUSA

FEUSA is a 501c3 nonprofit, nonpartisan organization headquartered in Washington, DC formed in 2007. The mission is to promote generationally owned family businesses and their contributions to the nation, economy, job growth, community impact and philanthropy. FEUSA promotes family business creation, growth, viability, and sustainability by advocating for family businesses and their lifetime of savings with Congress in Washington D.C.

Recently FEUSA helped form the Congressional Family Business Caucus. We have added 44 House Members in the first 20 months. FEUSA helps the Caucus to host three events per year on the Hill. The Caucus meeting is part of a full day agenda focused on family business issues. There is a legislative briefing, Hill meetings with Members of Congress and staff, and networking with other family businesses at lunch and/or dinner. Please visit our website at feusa.us for our brochure and more information on the organization.

The first year of the Trade Association Membership with FEUSA is at no cost. After the first year, the Association and FEUSA will have a discussion about financial consideration based on value received.
